

Need fun for your child's party? We will help you

"Thank you for the best and easiest birthday party I have ever held"...Mary

We entertain Brisbane kids at birthday parties with active fun and games galore.

Expect lots of laughter and excitement as we keep them busy having fun

While we run the fun all you need to do is re-energise them occasionally with food and drink

Apart from that you can sit back, relax and enjoy the party with your family and friends

Our parties are for boys and girls aged 4-10 who are crazy about having fun

We can help you with a Sports Party, a Games Party, a Soccer Party or a Crazy Chook Party

"The best party ever" is what many parents and kids say after their Crazy Party experience

"It was the best to see 16 little girls laughing and having so much fun"...Marina

"Voted by all the kids as one of the best fun parties ever"...Wendy

The Crazy Sports Party is for kids who love to kick, throw or hit balls. Boys go nuts over this party

The Crazy Games Party is for kids who love active fun but aren't big on sport. It is ideal for boys or mixed parties and especially so for girls parties.

The Crazy Soccer Party has plenty of soccer fun plus other fun stuff too.

The Crazy Chook Party is for kids who love their fun to be a bit different and totally hilarious.

At the end of the party the kids will go home with a big smile on their dial and many tales to tell. Especially about all those poor chooks and how everyone was squashed by the big ball.

You will be left with one very tired, contented and extremely happy birthday child.

"I have never seen a group of children so besotted"...Faye

"The kids verdict - Awesome"...Tina "The talk of the playground"...Madonna

We will come to you and will travel as far north as Caboolture; south to Ormeau; south west to Jimboomba; west to Yamanto and east to all bayside suburbs from Redcliffe to Redland Bay

The more space the kids have to enjoy our activities the more fun it is. Park parties are the best parties. Backyard parties only work if you have heaps of open empty space or are on acreage
